Subject: [External] don't reward Duke Energy

CAUTION: External email. Do not click links or open attachments unless verified. Send all suspicious email as an attachment to report.spam@nc.gov.

Hi Friend,

Duke Energy Carolinas wants North Carolina customers to pay higher energy bills to cover the cost of a failed nuclear facility that was never built. North Carolinians shouldn't be on the hook for their negligence!

Sign our petition telling the NC Utilities Commission (NCUC) not to reward Duke for their bad decisions:

<https://callout.ncconservationnetwork.org/dukeratehike>

Not only is Duke Energy asking us to take financial responsibility for their own poor planning on nuclear, but they also want us to cover the costs of their leaking coal ash pits.

Please join your neighbors across NC and speak out by **signing our petition urging the NCUC to require Duke Energy to take responsibility for their careless business practices: <https://callout.ncconservationnetwork.org/dukeratehike>**

Thanks,
Kate
